OUR STANDARD COLOURS

Painted Items

All our painted items are 18mm thick MR MDF with a Polyurethane (2 Pack) painted finish to the front and the edges. The back is always white melamine (unpainted).

Polyurethane consists of paint and hardener that provides a protective coating very similar to the paint you see on motor vehicles.

Our standard painted finish is MATT 10% (i.e., not Gloss or Satin).

Colours

We use Dulux Paint and have 9 standard colours to choose from. The Dulux Colour Specification Code for these are:

- **White:** Vivid White (SW1G1)
- **Mint Green:** Spring Burst Half (S23E1H)
- **Sage:** Pale Sage (S22C3)
- **Nude:** Light Rice (S13D1)
- **Pink:** Perfect Pink (S04E3)
- **Grey:** Strap (SG6F4)
- **Duck Egg Blue** (S28A3)
- **Navy:** Pacific Line (S41B9)
- **Black** (SG6G9)

Care Instructions

Painted surfaces are not as tough or as durable as laminated surfaces and can be scratched or chipped.

Please ensure you treat your painted items with care as we do not replace items that have been damaged by wear & tear.

When cleaning your painted items, use a soft cloth and warm soapy water, with no abrasive cleaning chemicals. Do not use a scourer as this may scratch or damage painted surfaces.

If you would like a different colour and/ or a different finish (satin/gloss), please select **Custom Colour** and provide the colour code at checkout (you will find this under “colour specification”).

Alternatively, you can purchase our **DIY** items which are unpainted, ready for you to sand and paint yourself.
